

DUST VACUUM WAND

Dust & Fume Solutions Pty Ltd

FUNCTION:

- The Dust Vacuum Wand is an essential tool for keeping your workshop clean and free from dust. Designed to connect to a dust extractor, it efficiently removes dust and debris from various surfaces and hard-to-reach areas.
- The wand head is equipped with bristles, allowing for effective cleaning of benches and other surfaces.

SIZE:

- Standard size for easy handling and maneuverability

FEATURES:

- **Efficient Dust Removal:** The Dust Vacuum Wand connects to a dust extractor, providing powerful suction to remove dust particles effectively.
- **Bristled Wand Head:** The wand head features bristles that aid in sweeping and cleaning surfaces, ensuring thorough removal of dust and debris.
- **Easy-to-Use:** With its user-friendly design, the Dust Vacuum Wand is simple to connect to a dust extractor and maneuver around the workshop.
- **Versatile Cleaning:** The wand's bristles enable cleaning in hard-to-reach areas, such as corners, edges, and gaps.
- **Workshop Maintenance:** By effectively removing dust, the Dust Vacuum Wand helps maintain a clean and safe working environment.

BENEFITS:

- **Improved Workshop Cleanliness:** The Dust Vacuum Wand helps keep your workshop clean, reducing dust accumulation on surfaces and equipment.
 - **Enhanced Air Quality:** Efficient dust extraction promotes better air quality by removing harmful airborne particles.
 - **Time and Labor Savings:** With its efficient cleaning capabilities, the wand reduces the time and effort required for manual cleaning.
 - **Versatility:** The wand's bristled head allows for versatile cleaning tasks, ensuring thorough dust removal from various surfaces.
 - **Compatible with Dust Extractors:** The Dust Vacuum Wand is designed to connect seamlessly to standard dust extractors, providing a reliable and integrated cleaning solution.
