

GALVANISED TELESCOPIC DUCT

Dust & Fume Solutions Pty Ltd

FUNCTION:

- Provides seamless connection and adjustment for duct runs.
- Eliminates the need for cutting and re-beading during system modifications.

TELESCOPING RANGE:

- 40mm to 450mm

DIAMETER:

- 80mm to 500mm

LENGTH:

- 500mm

MATERIAL:

- Galvanised steel

FEATURES:

- Convenient solution for finishing duct runs without cutting and re-beading
- Telescopic design offers flexibility and adjustability in duct sizing
- Durable construction using high-quality galvanised steel
- Easy installation process

BENEFITS:

- Time and cost savings during installation
 - Versatility to accommodate different duct sizes
 - Ensures proper airflow and system performance
 - Durable and corrosion-resistant construction
 - Professional finish for the ducting system
