

GALVANISED LEVER CLAMP

Dust & Fume Solutions Pty Ltd

FUNCTION:

- Provides quick and secure assembly of ductwork
- Ensures a tight and leak-free seal to maintain optimal airflow
- Facilitates easy dismantling and reassembly of duct as needed
- Offers reliable support and stability at the join point
- Suitable for a wide range of duct sizes and applications

MATERIAL:

- Stainless Steel

SIZE:

- 80mm – 400mm

FEATURES:

- Quick assembly of duct with clamp levers
- Rubber seal prevents air leakage
- Designed for easy dismantling of duct
- Wide body for enhanced support at the join
- Made from durable galvanized steel for long-lasting performance

BENEFITS:

- Efficient installation and disassembly of ductwork
 - Minimizes air leakage for improved system performance
 - Enables flexibility and convenience for maintenance and adjustments
 - Provides added stability and support at the joint area
 - Durable construction ensures long-term reliability and durability
