

HIGH TEMP FLEXIBLE HOSE

Dust & Fume Solutions Pty Ltd

APPLICATION:

- Used for high-temperature application.
- For ventilation of machinery that produces hot air such as ovens, harvesters and plastic molding

MATERIAL:

- Wall: silicon fiberglass
- Helix: 8mm stainless steel band

WORKING TEMPERATURE:

- -70°C to +300° C

DIAMETER:

- 50, 75, 100, 125, 152, 200

STANDARD COLOR:

- Grey

FEATURES:

- Exceptional heat resistance
- Leak proof
- Fiber reinforced
- Small bending radius
- Flame retardant to UL90- V0

BENEFITS:

- High temperature performance
 - Versatile usage with various diameters
 - Reliable and durable construction
 - Easy installation in tight spaces
 - Enhanced safety against fire hazards
