

STRAIGHT BRANCH

Dust & Fume Solutions Pty Ltd

APPLICATION:

- Extraction of fumes, dust, or suspended airborne matter.
- Suitable for manufacturing industries requiring efficient air extraction.

FUNCTION:

- Ensures extraction without air or product leakage.

SIZE RANGE:

- Various sizes to suit any requirements.

MATERIAL:

- Galvanized steel
- Stainless steel

FEATURES:

- High-quality construction for durability.
- Leak-proof design prevents air or product leakage.
- Easy installation within the modular ducting system.
- Compatibility with existing ductwork.

BENEFITS:

- Efficient extraction of harmful particles.
- Prevents contamination or release of materials.
- Enhances workplace safety.
- Improves productivity by maintaining a clean environment.
