

MATERIALS:

Wall: TPV coated fabric
Spiral: Special hollow plastic Helix

PRODUCT SPECIFICATIONS:

Working Temperature: Up to 180°C
Diameter: 50, 75, 100, 125, 152, 200
Construction: Plastic profile supporting spiral. Fabric-reinforced wall. Wall thickness 0.55 mm approx.
Colour: Black, custom color and blue
Size: 51mm to 203mm

FEATURES:

- Vibration resistant and crush proof
- Highly flexible and compressible
- Fabric reinforced
- Good resistance to chemicals
- Small bend radius
- Gas and liquid tight
- Flame retardant tested to UL94-HB

APPLICATIONS:

- For suction of vehicle engine exhaust gas
- For hose reel
- For slotted floor channels
- For above and below floor suction extraction
